# DESIGN TECHNOLOGY

Architecture | Civil | Mechanical | CAD Design & Manufacturing

Look around your surroundings and consider the opportunities. Consider your favorite hobbies, toys, and necessities. It all had to be designed. Do you want to know the secrets of good design? Ivy Tech's Design Technology Program will show you how you can become a valuable member of a process engineering team.

## DESIGN TECHNOLOGY IN THE REGION

Design Technology is an aggressive, fast growing field. As the area of south-central Indiana continues to grow in manufacturing, construction, and urban planning, so will the need for Design Technology technicians. And, Ivy Tech can help prepare you for a career in those areas.

## WHAT YOU'LL LEARN

You'll learn how to design solutions for modifying new or existing buildings, help in produce urban planning documents, developing innovative commercial products, or carve complex machine parts from stock materials. Choose from one of four specialties - Architectural, Mechanical, Civil or CAD Design and Manufacturing - and you'll be on your way to an exciting career in an in-demand field.

Design Technology is an associate degree program that is available in thirteen of the fourteen regions of Ivy Tech plus courses offered via distance learning. Some of the internet courses are offered from the Columbus Campus as well as for other campuses across the state.

Design Technology offers Associate of Science Degrees in two concentration area that will allow students to transfer to four-year colleges to complete a Bachelor's degree. The concentration areas include architecture or CAD Design and Manufacturing. Contact Ivy Tech's Columbus Campus to see what courses transfer if pursuing a bachelor's degree is your educational goal.
