

CHANGING LIVES. BUILDING FUTURES.

Ivy Tech Southern Indiana campus expansion; inspired by the past in service of the future.

The Ivy Tech Southern Indiana expansion project comes at a crucial time. Enrollment reaches historic levels with each and every semester. Since our last capital project in 1989, our campus enrollment has doubled, and we've met that increased demand for space by leasing other buildings in Sellersburg, Jeffersonville and New Albany. With this new project, we can begin to unite our student body and faculty. We can build a remarkable future for our students.

CAMPUS EXPANSION PROJECT: 2009-2011
