

2nd 8–Week Class Offerings Spring 2012

Classes that meet for 8 weeks are good choices for students who want to accelerate their learning. Students may prepare for a selective program, move through remedial courses quickly, take classes around difficult work schedules, or enroll after the semester begins.

Some 8-week classes are a hybrid with both face-to-face and online components. Other classes are completely online. Faculty provide support for both hybrid and online formats.

Date/Time	Course	Other Information
